

Paper Title: 7th International Conference on Information Systems, Logistics and Supply Chain (ILS International Conference)

1st Author ¹, 2nd Author ², 3rd Author ³

¹ 1st author's affiliation, City, Country

² 2nd author's affiliation, City, Country

³ 3rd author's affiliation, City, Country

{firstauthor@email.com, secondauthor@email.com, thirdauthor@email.com}

Abstract. Here are some rules and guidelines for submitting your paper for the conference. This document could be used as an application of those rules. The abstract should contain at least 70 and at most 150 words. The abstract has been tailored for output on the A4 paper size with 9-point font size and should be inset 1.0 cm (0.4 in) from the right and left margins. This document is in the required format.

Keywords: The paper should also include 3 to 6 keywords (separated by “,”), size 9.

1. Introduction

This template file may be used as an instruction for Word users. Authors are invited to submit full papers (between 8 and 10 page) written in English and following the recommendation of the Template. Papers for reviewing procedure will be submitted through the conference website.

In order to achieve rapid publication, the texts will be registered directly from authors' version. The authors are therefore fully responsible for the quality of their article, including illustrations. Authors are strongly advised to have their final draft read by at least two other persons (fluent in English) before sending the submitted final version.

1.1. Page Setup

All material on each page should fit within the A4 paper size of 21 × 29.7 cm (8.27 × 11.69 in), centered on the page, beginning margin 3 cm (1.18 in) from the top of the page and ending with 3 cm (1.18 in) from the bottom. The right and left margins should be 3 cm (1.18 in) as well.

Typescripts must be typed with single spacing on one column, preferably using a word-processor with a high quality printer. Use of the "Times New Roman" typeface, size 10, is preferred; do not indent when starting a new paragraph.

1.2. Typeset Text

For the title of the paper, use 14-point font size of the "Times New Roman", bold face and centered. The first letter of each word in the title should be capitalized, except articles, prepositions, and conjunctions. Use 10-point font size simple style (not bold) for the authors' name, and 9-point font size (not bold) for their affiliation, address, and email. Use of the "Times New Roman" typeface, size 9 for the abstract and keywords.

Authors are requested to restrict the use of headings to two levels where possible. The headings should be presented as given below and as shown on this document. Main headings should be typed using size 12 and bold; left justified; with 26pt before spacing size and 14pt after spacing size. Subheadings should be typed using size 10 and bold; left justified; with 22pt before spacing size and 11pt after spacing size. They should be numbered using Arabic numerals. The first letter of each word in headings, except articles, prepositions, and conjunctions, should be capitalized.

For the main text, please use 10-point type of the "Times New Roman" typeface and single-line spacing. For the Table caption, use the typeface of size 9, centered; with 12pt before and after spacing size. It should be positioned above the table.

Table 1: Table captions should always be positioned above the tables.

Heading level	Example	Font size and style
1 st -level heading	Introduction	12 point, bold
2 nd -level heading	Page setup	10 point, bold

Use the same setting for the figure caption, but positioned below the figure. Place Tables and Figures in text as close to the reference as possible.

Figure 1: Figure captions should always be positioned below the figures.

1.3. Formulas

Displayed equations or formulas are centered and set on a separate line (with an extra line or halfline space above and below). Displayed expressions should be numbered for reference. The numbers should be consecutive within each section or within the contribution, with numbers enclosed in parentheses and set on the right margin.

$$x + y = z. \quad (1)$$

Equations should be punctuated in the same way as ordinary text but with a small space before the end punctuation mark.

1.4. Citations

For citations in the text please use square brackets and consecutive numbers: [1], [2], [3], etc.

1.5. Page Numbering and Heading

Please keep the page heading as is (9-point type of the "Times New Roman" typeface, italic, and right justified). No need to include page numbers.

2. Conclusion

Full responsibility for the paper rests with the author. The authors must have taken the necessary steps to obtain permission for using any material that might be protected by copyright. Papers that do not comply with the template will be returned to the authors for corrections; however, the inclusion of the paper in the proceedings is subject to meeting the deadline required by the company publishing the proceedings. Please follow the sample reference list for journal articles [1], a book [2], proceedings [3], as well as a URL [4].
